

An upgrade that will
transform your space

ERIGO®
By ETERNIA

“As you move up in life, your spaces should transform too. Our Erigo range of windows and doors will help you do just that.

Erigo not only offers stunning designs that change the way your spaces look and feel, but also ensures that they are sturdy enough to protect your spaces, even in extreme weather conditions.

Welcome to a new lifestyle.”

- Team Eternia

WiWA[®] certified windows

Windows that are independently tested and certified to withstand extreme weather conditions as per global standards.

WiWA[®]

WiWA[®]'s full name:
Wind, Water and Air

WiWA[®]'s purpose in life: India's first rating system to help you pick the right windows for your home using an evolving scientific algorithm.

The WiWA[®] promise

Heavy rains? Cyclones? Pollution? Noise? Dust?
No problem.

WiWA[®] Advantages

A WiWA[®] score allows you to gauge the performance of windows on three parameters:
wind pressure, water tightness and air permeability.

Helps you select a window. For example, if you want a window that can handle cyclones, check the wind parameter.

A scientific performance guarantee, since our windows are independently tested and certified against global standards.

How do you measure a WiWA[®] score?

WiWA[®] scores are graded from 1 to 10. 10 is the highest score.

Meet the window like none other, with 20+ components designed by global experts.

Anti-rattle devices to make windy nights peaceful

WiWA[®] certified windows are tested to withstand cyclones

No termites, thanks to an aluminium alloy

Special drainage solution to keep out heavy rains

Anti-lift plug for extra security

High-quality flush handles

It is an international recognition of the lower environmental impact of our business activities and our contribution towards enhancing the performance of Green Buildings.

The industry's best warranty.

We'll care for your windows the way you care for what's most important to you

Windows that grow old with you, while staying young and beautiful.

12-year warranty* on the window frames.

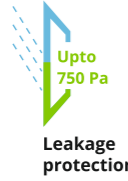

2-year warranty* on all hardware components in the window (including locks, handles and rollers).

*T&C applied

Why choose aluminium system windows?

WiWA	Testing & Certification	 Tested and Certified on Wind-Water-Air performance.
	Wind	 Tested to withstand even the cyclonic winds. The aerodynamic design makes it suitable for high-rises and large size windows.
	Water	 Enough to prevent water seepage caused by the heaviest of rains in India.
	Air	 Air-tight design with custom-developed accessories provides better noise and dust insulation, while preventing the leakage of AC-cooled air.
Safety	Burglary	 Special fittings like multi-point lock, anti-lift plug, safety glass to keep your house safe.
	Health	 Mined and refined by Hindalco, Aditya Birla Group , ensuring no contamination.
Aesthetics	Style	 Sleek design , large sizes with minimal obstructions.
	Colour & finish	 Unlimited colours , superior finish.

Why choose aluminium system windows?

Comfort	Noise	 Compatible with high-performance glass. Superior air-tight design.
	Quality & Consistency	 Custom-designed hardware and accessories ensure smooth operation for years. Moving parts like locks and rollers are built to last for over 15000 cycles .
	Ease of maintenance	 Designed for easy maintenance .
	Ease of operation	 Factory-made, tested & certified , quality checked.
Warranty	Warranty	 12 years on profile, 2 years on Hardware.
