

An upgrade that will
transform your home

“As you move up in life, your spaces should transform too. Our Erigo range of windows and doors will help you do just that.

Erigo not only offers stunning designs that change the way your spaces look and feel, but also ensures that they are sturdy enough to protect your spaces, even in extreme weather conditions.

Welcome to a new lifestyle.”

- Team Eternia

WiWA[®]certified windows

Windows that are independently tested and certified to withstand extreme weather conditions as per global standards.

WiWA[®]'s full name:
Wind, Water and Air

WiWA[®]'s purpose in life: India's first rating system to help you pick the right windows for your home using an evolving scientific algorithm.

The WiWA[®] promise

Heavy rains? Cyclones? Pollution? Noise? Dust?
No problem.

WiWA[®] Advantages

A WiWA[®] score allows you to gauge the performance of windows on three parameters:
wind pressure, water tightness and air permeability.

Helps you select a window. For example, if you want a window that can handle cyclones, check the wind parameter.

A scientific performance guarantee, since our windows are independently tested and certified against global standards.

How do you measure a WiWA[®] score?

WiWA[®] scores are graded from 1 to 10. 10 is the highest score.

Meet the window like none other, with 20+ components designed by global experts.

Anti-rattle devices to make windy nights peaceful

WiWA[®] certified windows are tested to withstand cyclones

No termites, thanks to an aluminium alloy

Special drainage solution to keep out heavy rains

Anti-lift plug for extra security
